Respected Prof. Sanjay Kumar Singh Sir,

My name is Saurabh Kumar Singh and I'm a third year student at Tezpur Central University, Assam pursuing B.Tech. in Computer Science and Engineering. I am very interested in your work on Deep Learning, and believe it fits well with my interest. My area of interest is Deep Learning and I want to do my future research pursuits in the same field. I have been working in the field of Machine Learning for one year and apart from doing few projects related to Reinforcement Learning, I have recently taken part in some research projects in the field of Deep Learning. In the future I would like to work on quality projects in order to research more in the field of Deep Learning. I wish to start an internship under your guidance. I have also taken several advanced courses in Deep Learning on coursera, which may help me get started quickly for the internship. I will be available during the whole internship and will be very sincere throughout the internship.

It will be a great opportunity for me to work under your guidance so that I can learn new things while working on quality projects. For your reference I have attached my Resume with the mail. I will be looking forward to hearing from you.

Sincerely,

Saurabh Kumar Singh.
