Agenda#01: Discussion on feedback received from students during Spring 2020, Autumn 2020 and Spring 2021

The online feedbacks of the students for the various courses received from Controller of Examination for the three semesters were forwarded to all the faculty members from time to time so that the faculty members may go through them. Feedbacks received were also shown in the meeting so that action may be taken on the points raised by the students.

Resolution

Feedback was not received for the Autumn 2020 semester. For Spring 2020 and Spring 2021 very few students provided the online feedback. No negative comments were received, rather the students appreciated the efforts of the faculty members during this time of crisis caused due to Covid-19. As the classes are continuing in online mode and all the faculty members are sincerely taking the classes and uploading the study materials, therefore no action is needed, and it was decided to continue in the same manner till physical classes start.
