IndiaBioscience is organising the 12th Young Investigator Meeting (YIM2020) in Mahabalipuram, Tamil Nadu, India from 14-18 February 2020. It gives us great pleasure to invite you to attend the meeting in Young Investigator (YI) category. You will have to present a poster of your current research work.

The purpose of the meeting is to promote interactions between postdocs, junior faculty and senior scientists; and to mentor young investigators on how to launch successful labs as independent investigators. The meeting brings together an eclectic mix of India's best young life science researchers, post-doctoral fellows, renowned Indian and international scientists, representatives of various grant- funding agencies and science policy makers while doubling up as a collaboration-cum- recruitment fair.

IndiaBioscience will provide the travel reimbursement of maximum Rs.12000/- or the actual amount, whichever is the lowest. Also we will take care of your local hospitality and transport in Mahabalipuram for attending the meeting.

We look forward to having you with us at YIM 2020.

Kind regards,

Smita Jain  
Executive Director  
IndiaBioscience
