

Two Days Anti-Drug Counseling Programme

NSS team of Tezpur University, on the 21th and 22nd of January, 2019 organized an Anti-Drug Counselling Session. This program was held with a foresight to help the students in knowing the drastic effects that drugs can have on us and to discuss about the various preventive measures needed to overcome them. It was a two day program held on 21th and 22th of January for the student of School of Engineering, 1st and 2nd year respectively.

Special guests were invited to address the subject and provide valuable insight into the matter. The specialists interacted to the students and discussed various drug and their related issues that are the burning problems among the youths of today's world. The students were also asked to voice their queries. The various queries put forward by the students were discussed in order to arrive at a

solution. We talked about the various kinds of addictions and the impact that it causes in our day to day life and our future.

On the second day of the programme i.e. 22nd January held for 2nd year student, aforesaid special guest were invited to address the subject and provide valuable insight into the matter. It was very similar to previous day programme, the specialists interacted to the students and discussed various drug and their related issues that are the burning problems among the youths of today's world. The students were also asked to voice their queries. The various queries put forward by the students were discussed in order to arrive at a solution. We talked about the various kinds of addictions and the impact that it causes in our day to day life and our future.

Overall the Anti-Drug Counseling programme was a huge success as it was able to sensitize students about the negative impact that drug has on us. It also passed on the message amongst the students that temporary illusion caused by drugs can have permanent loss for the future. The session lasted for almost two hours and the two day program of Anti-Drug counseling came to an end with the distribution of refreshments.
