To

The Registrar
Tezpur University
Tezpur, Assam, India

Sir,

With reference to your letter memo number F-27-77/2014/GA-I, dated 13-02-2019, I am extremely happy to learn that Tezpur University is committed to reducing the electricity consumption of the University. In this regard, being an Alumnus of the Department of Energy, Tezpur University, and also Certified Energy Auditor of Bureau of Energy Efficiency, I will be happy to conduct the electrical energy audit of the University. The Certified Energy Auditor Firm used to charge consultancy fees of an amount Rs 3 lakhs per audit for this kind of auditing. However, as gratitude and acknowledging to my alma mater, I will carry out the electrical energy audit of the University free of cost.

I would also like to request you to allow me to collect the electrical generation/consumption data of the University. I will start the work this month itself.

Regards,

For ERIC ENERGY
