Program: MTech in Energy Technology

1. About the course

Criteria / Particulars

(ii) Organisation of the course in the lesson plan

(iii) Coverage of topics in a logical sequence

(iv) Emphasis on fundamentals

Corrective measures adopted

Course plan was reviewed with the other instructor and constructive changes were made (if any)

A proper sequence of the topics was maintained while teaching.

Since the subject deals with the basics of energy technology and students from different educational background take the course, so proper guidance was provided including doubt clearing sessions.

2. About the instructor

(ii) Clarity of expression

(i) Pace of teaching

(ix) Scope of independent thinking

Students were provided with real life examples in the class along with various related videos were shown as well as referred.

Proper time was given to each topic as well as sufficient amount of time was provided for problem solving and homeworks

Independent thinking was encouraged and different creative ideas and alternative ways to find the solution of a problem were discussed

1. About the course

Criteria / Particulars

(v) Sessions on problem solving

(iv) Emphasis on fundamentals

Corrective measures adopted

Problem solving sessions were conducted apart from the regular classes.

The fundamentals of the fuel and combustion were discussed for substantial number of classes before going into the complex and deep portion of the syllabus.

2. About the instructor

(iv) Maintains regularity and punctuality in the class as per the time table

Classes were held according to the prescribed time table and in case of absence, alternative classes were arranged in advance.

1. About the course

Criteria / Particulars

- (iv) Emphasis on fundamentals
- (v) Sessions on problem solving

Corrective measures adopted

More doubt clearing sessions were organised beyond the scheduled classes.
Students were taught worked out examples in the classes.

2. About the instructor

- (i) Pace of teaching
- (ii) Clarity of expression

The lesson plan was tweaked to improve the pace of teaching. Students were also encouraged for creative thinking by engaging them to real life examples related to the subjects
Audio visual means available in the department were used to make the classroom teaching loud and clear.

	(iii) Accessibility outside the class	13	1	0	0	0	↑ 69
	(iv) Maintains regularity and punctuality in the class as per the time table	12	1	1	0	0	→ 67
	(v) Questions and discussions are encouraged	13	0	1	0	0	→ 68
	(vi) Fair and unbiased in evaluation process	12	1	1	0	0	→ 67
	(vii) Encourage time to think creatively and search for additional materials	13	0	1	0	0	→ 68
	(viii) Scope of independent thinking	14	0	0	0	0	↑ 70
	(ix) Others (please specify)						
	(x) Overall effectiveness of the instructor / teacher	12	1	0	0	0	↓ 64

The cumulative and weighed sum against each criterion gives an indication of the rating of that criterion. From the analyses it has been found that the poor performing criteria were as following. However, there is a scope of further improvement in these areas.

STUDENT FEEDBACK FORM

Department: Energy
Course title: Solar energy engineering and application
Course code: EN563
Name of the course instructor: Dr.Nabin Sarmah

Academic year: 2019
Semester: Autumn
Program: MTech in Energy Technology

1. About the course

Criteria / Particulars

- (ii) Organisation of the course in the lesson plan
- (v) Sessions on problem solving
- (vi) Availability of textbooks / study materials

Corrective measures adopted

The course, along with the lesson plan, has been revised and mapped with the LO & PO.
Separate class were organised for problem solving.
Study materials were provided to the students. More textbooks were made available in the central library too.

2. About the instructor

- (iv) Maintains regularity and punctuality in the class as per the time table
- (vi) Fair and unbiased in evaluation process
- (x) Overall effectiveness of the instructor / teacher

Special emphasis was given to take the class on the scheduled time.
The evaluated answer sheets were shown to the students and get it verified.
To improve the effectiveness of teaching, students were provided with classnotes.
Various examples were solved during the class and related problems were given to the students to solve.

The rating points given by the students in a scale of (A - Excellent, B - Very Good, C - Good, D - Average, E - Below average). All the feedback scores are colour coded with green, blue, yellow, pink, and red tints respectively from A through E. The feedbacks have been analysed further as explained in the next page.

1. About the course

Criteria / Particulars

Corrective measures adopted

(v) Sessions on problem solving

Additional classes were organised dedicated to problem solving.

(vi) Availability of textbooks / study materials

The relevant study materials were provided to students. More textbook and reference books were arranged in the central library.

2. About the instructor

(iv) Maintains regularity and punctuality in the class as per the time table

Regularity was maintained and the students were welcomed even after the class sessions.

(v) Questions and discussions are encouraged

More questions were discussed in the class. Assignments on various real life problems were assigned and discussed.

(i) Pace of teaching

Proper pace was maintained, letting the student understand the topics clearly.
