Advanced Digital Verilog Training (Online)

Date of Implementation: 17/02/2020 - 25/02/2020

Number of Attendees: 40

Conducting Consultant/Agency: Mr. Raja Narasimha Rao Bandi

Verilog instructor Mr. Raja Narasimha Rao Bandi

Advanced Digital Verilog is a digital design training program for professionals. This course aids in logic design by emphasizing the development, verification, and synthesis of digital circuit designs. HDLs (hardware description languages) are critical tools for today's digital designers. Simulators allow you to test the values of signals in your system that are difficult to monitor on physical hardware. The HDL code is converted into digital logic circuits using logic synthesis.

Mr. Raja Narasimha Rao Bandi, an experienced practitioner who has worked on a number of innovative ventures, taught the pupils Advanced Digital Verilog. This was a one-week training bootcamp that taught Advanced Verilog to participants. This course was highly recommended by the professors and the course was best rated by the students as the course was structured and all the concepts were broken down well for easy understanding and explained with good illustrations.
