### NATIONAL SERVICE SCHEME

NSS Volunteers undertake various programmes in the adopted villages, college/school campuses and urban slums during weekends or after college hours. Some of the Regular Activities are Plantation Campaign, Blood Donation Campaign, Cleanliness Drives, Survey of the Village/Area, Republic Day Celebrations, Health and Hygiene Awareness Programmes, Anti-Drug Abuse Campaigns, Independence Day Celebrations, etc. Some of the noteworthy ones as beyond the campus environmental activities are mentioned below:-

### PLANTATION DRIVE OBSERVED BY NSS VOLUNTEERS OF TEZPUR UNIVERSITY

The NSS unit of the institute has organized several Plantation Drives in and around Tezpur University campus. The Programme Coordinator addressed the volunteers about the role of trees in human life. He also mentioned that we should take utmost care of environment. The volunteers plant flower saplings, fruits and some other trees like Neem, Peepal, Mango, April Fool, etc. at the rate of 1000 saplings per year.

The trees not only make our soil fertile, but they also generate consciousness in our lives. If we want to protect our civilization and culture, then we must plant more and more trees definitely. The trees do many things for human being as they seem beautiful and also keep the air clean. The trees reduce the harshness of the weather. There are so many types of trees that benefit us. The air, water and soil pollution can be eliminated by the growth of trees from the atmosphere. They release oxygen which is needed for every human being to breathe; also they absorb carbon dioxide from the atmosphere. Trees are the main important source of rain. The trees are also habitats for many living species like insects, birds and many animals. The trees are the source of fruits and flowers. They provide us ecological balance and also give us cool shade during summer. Save trees is the most important thing nowadays. Hence the trees are very much important for our life because trees are giving us healthy and wealthy life.

In order to save our environment and make our earth green we should plant as much trees as possible. They refresh air from toxic gases and prevent us from air pollution.

### NATIONAL SERVICE SCHEME

**5<sup>th</sup> JUNE, 2021**

Due to the global pandemic, keeping in view the well-being of all, the students were not called back to the Campus yet. Hence, this time too, the World Environment Day was celebrated on a Virtual Mode. A Webinar was conducted on **Ecosystem Restoration**, Hon'ble Vice Chancellor Sir, Invited dignitaries/speakers and various other faculty members participated in the event, followed by which a One Day long Plantation Drive was carried out by the NSS Volunteers at their homes and surroundings.

The campaign was held under the motto of One Person One Tree. As a result, 342 Volunteers participated in it and it was one of the highest numbers of saplings to be planted on a single day.
